

# CUSHIONS FOR FEET

## **Dermal Fillers - The Natural Solution**

Dermal fillers, primarily made of Hyaluronic Acid (HA), a naturally occurring sugar in the body, provide a plumping effect by attracting and retaining water. This safe and effective solution is naturally present in our skin, eyes, and joints, making it ideal for various body areas, including the feet.

## ***Cushions For Feet - Relieving High-Heel Pain and Corns***

*Step into Comfort:* High heels causing discomfort? Our dermal fillers offer a solution that feels like "walking on pillows." Expertly administered by our experienced podiatrists, these fillers provide cushioning to the balls of your feet, alleviating pain from high-heeled shoes (stiletto-tarsalgia). The painless procedure brings relief for up to 6-12 months, making it an excellent choice for professionals and anyone in need.

*Comfort Beyond Heels:* Dermal fillers extend their benefits to alleviate corns and calluses caused by pressure or trauma. Carefully injected beneath the affected areas, these fillers provide additional padding and relief, enhancing your foot comfort for months to come.

## **The Procedure - Safe and Personalized**

*Your Comfort, Our Priority:* At our specialized functional podiatry clinic, we prioritize your well-being and comfort. During a thorough consultation, our experts assess your specific foot concerns and create a personalized treatment plan tailored to your needs.

*Painless and Quick:* The dermal filler procedure for the feet typically takes 30 minutes to 1 hour, and a local anaesthetic ensures a painless experience. With minimal side effects, such as rare occurrences of infection, redness, or post-operative discomfort, you can confidently take a step towards foot comfort.

## **Long-Term Benefits and Booking Information**

*Maintaining Comfort:* Like facial aesthetics, occasional top-up treatments are recommended to maintain the desired effect. Our dedicated team will guide you in scheduling follow-up appointments, ensuring long-lasting comfort.

*Book Your Appointment:* Don't let foot discomfort hold you back. Book an appointment with our reputable functional podiatry clinic and discover the benefits of dermal fillers for foot comfort. Experience relief and enhanced well-being today. For more details visit our website!
